

WOOD FIBER

ULTIMATE BESPOKE LINEN COLLECTION

100% Wood Fiber

By Dangira Cestlavie

" Softness beyond the limit "

Soffice e preziosa, questa collezione per il letto prende forma grazie a particolari lavorazioni del legno, di faggi e pioppi che danno vita a pregiati filati. Tessuti eco e green, con un occhio rivolto all'ecosostenibilità.

Il Bianco è il colore puro per eccellenza e ricorda la freschezza di un bucato appena lavato; insieme al colore Tuberino crea la soffice immagine della schiuma di un cappuccino sorseggiato in un bistrò di Parigi.

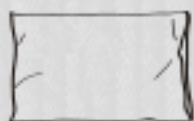

Soft and precious, this bed collection comes to life thanks to a particular wood processing of beeches and poplars that create precious yarns. They are eco and green fabrics, which wink at eco-sustainability.

White is the absolute pure color. It recalls the coolness of the freshly washed laundry; together with the Tuberino color, it creates the soft image of the foam of a cappuccino, sipped in a Parisian bistrot.
